

GOVERNMENT SERVICES

Making An Impact

Barnes & Thornburg has substantial experience in multiple practice areas that affect local governments – such as utilities, economic development, public finance and taxation. Helping clients reach their potential and work through necessary government and regulatory processes on the local, state and federal level is a cornerstone of our firm.

We partner with clients on the comprehensive legal services they need to grow their businesses and their communities. As business continually intersects with government, we advise regulated entities on compliance and help companies navigate project approval, tax incentives and site selection processes. Many of our skilled government services attorneys and advisers bring deep public sector experience to working with clients on public policy, regulatory, compliance, legislative and economic development efforts.

In addition, our team works with federal and state governments, government agencies and political campaigns on a wide variety of matters. We work closely with municipalities on annexation, bidding and procurement, permitting, and government affairs matters, in addition to financing and economic development incentives.

Practice Leaders

Why Barnes & Thornburg?

Finding new ways to help clients identify solutions and new business opportunities, across industries, is at our core. We are, at times, more than lawyers, we are advisers bringing new ideas to light. We understand what keeps you up at night and work collaboratively to find practical and creative solutions, at the heart of business.
