

LOCATIONS

Philadelphia

Located in the center of this innovative business hub, our team of seasoned attorneys counsels leading companies in the region's pharmaceutical, life sciences, technology, manufacturing, healthcare, consumer products, insurance, and financial services industries on a range of legal matters – from high-stakes litigation and class actions, to complex transactions and product liability, mass tort, intellectual property, antitrust, trade secret, and cross border disputes.

In addition, we leverage our full-service platform to offer our clients – both global and local – a wide range of complementary legal services and the knowledge and experience of attorneys from across the firm.

Our aim is to provide legal solutions that not only align with our clients' business goals, but are as innovative, creative, and forward-thinking as the companies we represent.
