

## UNCOMMON VALUE

### BT ValueWorks

BT ValueWorks is our suite of legal operations solutions that ensure value, innovation, efficiency and predictability to the legal services we provide. Our firm has built something better for clients — fostering true collaboration among attorneys, in-house legal operations professionals and law firm professionals, supported by business and legal operations technology.

### Our investment, your return...

With head count, technology and budget pressures at play, in-house legal departments need true partnership and immediate answers from outside counsel. BT ValueWorks has developed a suite of proven, easy-to-use services that drive efficiency, supported by scalable teams, processes and technology, providing better management of business and legal matters in real time.

### 'No surprises' drives everything we do...

As one of few firms in the world with an established Legal Operations Department, we do whatever it takes to eliminate ambiguity in the attorney-client relationship. By creating and applying innovative and practical tools that deliver tangible insights to clients, we can better tackle legal issues in a predictable, cost-efficient manner, providing a 'no surprises' experience for our clients.

**“The Barnes & Thornburg story shows how firms can more quickly than ever adopt a strategy and put it in place to win work and control costs.”**

**– The American Lawyer**
