The rapidly evolving COVID-19 pandemic and our nation's response has affected virtually all areas of business, including environmental management – particularly for those entities that are regulated under the Clean Water Act.

Join our Environmental attorneys who work closely with water clients to discuss what the “new normal” for current operations may look like. The speakers will:

- Address applicable EPA and state agencies pandemic policies
- Discuss adaptive measures for regulated water entities
- Spot issues that may arise as facilities reopen or ramp back up

The webinar will feature a Q&A session. Questions may be submitted at the time of registration or during the webinar.

1.0 hour CLE credit pending.
