COVID-19 Tracker

April 14, 2020

As the coronavirus pandemic creates an ever-changing new normal effecting businesses and communities, federal and state governments continue to issue new guidance and resources in response. We know that these new developments impact business and other concerns of our clients.

Barnes & Thornburg has been actively monitoring legislative, regulatory, and executive developments in response to COVID-19, at both the federal and state levels. As a service to our clients and other business relations, we have launched the COVID-19 Tracker to provide a regularly updated quick resource for checking the latest developments. The COVID-19 Tracker includes both summaries of the latest developments and links to additional public resources for more information, in three different collections:

- [State Legislation Dashboard](#)
- [Federal Legislation Dashboard](#)
- [Federal & State Regulations/Executive Orders Dashboards](#)

For tips to use each of these dashboards, please download our [COVID-19 Tracker User Guide](#).
