2014 has been called the Year of the Data Breach. It seems every week another major corporation is being hacked. You may think those things only happen to larger companies like Target and Home Depot. They don't. Every business is a target, including yours.

It's not if you'll be hacked, it's when.

Brian McGinnis of Barnes & Thornburg will help attendees learn the lessons of the data security breaches suffered by companies and provide practical cybersecurity advice to help you protect your business.

When: Friday, Feb. 13

Time: 11:30 a.m. - 1 p.m.

Where: Barnes & Thornburg | 11 S. Meridian Street | Indianapolis
