

Why Barnes & Thornburg?

Finding new ways to help clients identify solutions and new business opportunities, across industries, is at our core. We are, at times, more than lawyers, we are advisers bringing new ideas to light. We understand what keeps you up at night and work collaboratively to find practical and creative solutions, at the heart of business.

TAX CONTROVERSY

Gain Control

Barnes & Thornburg's Tax practice advises taxpayers on planning for, resolving, and litigating federal, state, and local tax audits and controversies. We are skilled in the often difficult terrain associated with the tax controversy process. Our advice ranges from planning for and defending a tax audit to handling administrative appeals before the Internal Revenue Service and state and local tax authorities. In the event a tax controversy is not resolved by the administrative process, we litigate all related tax claims through trial and on appeal.

We represent multinational corporations, Fortune 500 companies, emerging companies, individuals, estates, family offices, and nonprofit organizations concerning the resolution of their tax issues.

We advise clients pre-controversy by identifying and mitigating tax risks as part of tax planning. We also counsel clients on tax procedures, including reporting and disclosure requirements, avoiding or abating tax penalties, privileges, summons enforcement proceedings and filing Freedom of Information Act requests with the Internal Revenue Service.

Using effective advocacy and litigation strategies, Barnes & Thornburg's Tax practice has resolved tax disputes in federal and state courts, including the U.S. Tax Court.
