

Life Sciences Lunch – Space: The Next Research Frontier

DATE

July 21, 2015

Despite the recent loss of the SpaceX transport shuttle to the International Space Station (ISS), research in micro and zero gravity environments is rapidly becoming the next frontier in health science research. With new market opportunities and technological niches, space research holds great promise for the next generation of scientists and investigators. Please join us as we hear from companies actively involved in expanding science in space and learn about the challenges and opportunities for getting experiments in-place and operating on the ISS.

Speaker:

- Kris Kimel, Founder, KY Space & Space Tango

When: Tuesday, July 21

Time: 11:30 a.m. (Eastern) Registration and Lunch | noon - 1 p.m.
Presentation

Where: Barnes & Thornburg | 11 S. Meridian Street | Indianapolis, IN

Also available in other Barnes & Thornburg office in Chicago, and in cooperating facilities in Merrillville and New Albany.

Registration: btrsvp@btlaw.com

If you register and become unable to attend, please email jodie.daugherty@btlaw.com.
