The annual J.P. Morgan Healthcare Conference is the premier event for bioscience companies looking to connect with investors but many small companies are still unfamiliar with the conference or have a hard time discerning the hype from the value. Please join us as we speak with Elevate Ventures' Dr. Kyle Keeney, who will be just back from the 2019 conference. We'll discuss the event and how it has evolved over the past several years, why it is important in the fundraising landscape, and hear how small companies can make the most of their time there.
