learn before these cutting-edge therapies become more mainstream.

Please join our panelists as they discuss:

- What is gene therapy?
- How different is the science?
- How can gene therapy be used to address the unmet needs of rare diseases?
- What is its potential impact on healthcare overall?
- What changes need to be made by payers and healthcare systems to meet these challenges and opportunities?

There will not be a Zoom option for this session. We are excited about getting back to our fully in-person meetings and hope you will be able to join us.

Networking and lunch

11:30 a.m.-noon

Program

Noon-1 p.m.

This program will feature a Q&A session. You may ask questions during the Q&A or submit them when you register.

Questions? [Email Blakelee Kortz](#) or call 317-231-7316.
