

## SPEAKING ENGAGEMENTS

# Preventing And Responding To Enterprise Level Cyber Threats

## DATE

May 18, 2016

## SPEAKERS

**Jason A.  
Bernstein**  
Partner

**Carrie Marie  
Raver**  
Partner

The speakers will cover the latest developments in cybersecurity.

Learn about the emerging types of cyberattack threats and how informed organizations are responding strategically to reduce the risk of cyberattacks, as well as how to respond if they occur.

Managing risk with third parties, such as outside vendors:

- Understand the tools for assessing (with limited internal resources) vendor cybersecurity risk, negotiating agreement provisions affecting data security more effectively, and conducting vendor audits (to show that you actually do audit vendors)
- Where your organization is a vendor/service provider, learn how to shift and minimize risk in agreements

Cyber insurance:

- Ways to structure policies and language, what coverages you should consider buying, and coverage exclusions/limitations to avoid
- How effective carriers have been at paying claims and covering losses and lessons from coverage denials

## Barnes & Thornburg Speakers:

- Jason Bernstein
- Carrie Raver
