This month's survey results from our friends at [Employers' Resource Association](#) look at employer tobacco policies. Here are some of the interesting results:

- Only 28 percent of respondents have a smoke-free campus (Not included in the survey is how many companies won't even hire smokers – undoubtedly a much smaller number)
- 86 percent prohibit smoking while driving a company-owned vehicle
- 70 percent address e-cigarettes in their policies and 61 percent prohibit smokeless tobacco
