Indiana Health  
Industry Forum

When you're running a life sciences company, keeping track of proposed state and federal legislation can seem like another full-time job.

However, legislators depend on input and feedback from their constituents when framing new policies or contemplating changes, so making sure your elected officials know how your company will be affected is crucial.

Please join us to hear from our expert panel on ways to frame a policy

conversation and become an effective advocate for your company and industry.
