

The Legal And Practical Issues Associated With Institutional Controls, ERCs And EROs

DATE

May 7, 2014

David Gillay of the Indianapolis office presented to the Midwestern States Environmental Consultants Association at the quarterly meeting on May 7. David's presentation, "The Legal and Practical Issues associated with Institutional Controls, ERCs and EROs," covered a range of topics including:

- Guidance documents associated with Institutional Controls
- Timeline for Institutional Control development
- Legal issues associated with them
- Steps toward implementing an ERC and hazards along the way
- Steps toward implementing an ERO, hazards along the way and coordinating with municipalities
- Institutional controls... how to plan from them and develop strategies for following up with them

Presentation available upon request.
