

SPEAKING ENGAGEMENTS

Regulatory Implications Related To On-Site (In-situ) Remediation Technologies

DATE

June 29, 2021

Jeffrey Longworth spoke at the Remediation Journal's PFAS Experts Symposium. Jeff's presentation was "Regulatory Implications Related to On-Site (In-situ) Remediation Technologies," which discussed technologies that are available for remediating contamination and if these technologies can really achieve the kind of end results that meet newer more stringent state standards.
