

National Environmental Monitoring Conference

DATE

July 13, 2015

David Gillay of the Indianapolis office will be presenting at the National Environmental Monitoring Conference on July 13-17, 2015, in Chicago. His presentation, "Real Time Analysis and Resolution of the Vapor Intrusion Pathway at an Active School," will provide a real world example of innovative tools deployed at an active school to assess in real-time the potential vapor intrusion (VI) pathway.
